

Recycling your Meningitis Research Foundation Resources

Climate change can increase the risk of meningitis, where hotter, drier, and dustier conditions favour the spread of the disease. Do your bit to reduce climate change and follow our recycling guide.

MRF banners

These are 100% recyclable and can be recycled via your household plastic recycling box.

Paper resources

Recycle via your household paper recycling. Make sure to check for any sponsorship forms first and shred any papers with personal information on.

Stickers

Please dispose of the sheets via general waste. We have not yet found a recyclable alternative.

Collection tins/buckets

We love reusing our tins/buckets. Please send yours back to when you are finished.

Any unused resources

Please return to Meningitis Research Foundation, Room 703, The Programme Building (7th Floor), The Pithay, Bristol BS1 2NB.

"I sent my fundraising bucket back so other fundraisers can use it to hit their target!"
