Sam's highlight:

By requesting home collections for the Christmas, Easter, and summer holidays (and getting friends and family to collect alongside him at each), Sam managed to raise well over £2000 from bucket collections alone!

Sam's advice:

"I raised most of my money through home collections over the Christmas and Easter holidays, where I averaged £200 per collection. If you can get help from friends and family they are extremely profitable. Climbing Kili and raising £3000 was one of the most challenging experiences of my life but was by far the most rewarding and I don't regret a second of it."
