

Funding from pharmaceutical companies

We receive financial support from a number of pharmaceutical companies who share our aim of preventing people from getting meningitis. We receive no more than 15% of our total income from pharmaceutical companies, and these sponsors do not influence the work we provide but fund strategically important projects.

Funding overview

Company	2017 (£)	2018 (£)	2019 (£)
GSK	162,000	118,111	115,000
Pfizer	111,593	119,528	150,950
Sanofi	15,000	25,000	54,240
