

***Are you  
Vaccinated yet?***

# Hola!

*Welcome to*  
***Are you Vaccinated yet?***  
*read on to find out more...*

# ***Are you Vaccinated yet? is about – get vaccinated and defeat meningitis by 2030.***

**Meningitis remains a universal public health challenge in countries around the world.**

It is 2019, and the anti-vaxxers movements are still predominant among multiple cultures around the world after diving into research.

**Meningococcal Disease Spreads from Person to Person.**

The bacteria that cause meningococcal disease spreads by exchanging respiratory and throat secretions (saliva or spit) during close (for example, coughing or kissing) or lengthy contact.

**Getting vaccinated is the best way to prevent meningococcal disease.**

The idea behind  
*Are you Vaccinated yet?*  
2030 campaign is ...

IF IT TOUCHES  
THE LIPS,

ALL IT TAKES  
IS ONE KISS.

Meningitis can  
kill in 12 hours.  
It starts with  
sharing bacteria.

ARE YOU  
*VACCINATED* YET?

All it takes is one lick.  
*Are you vaccinated yet?*

IF IT TOUCHES  
THE LIPS,

ALL IT TAKES  
IS ONE LICK.

Meningitis can  
kill in 12 hours.  
It starts with  
sharing bacteria.

ARE YOU  
*VACCINATED* YET?

All it takes is one sip.  
*Are you vaccinated yet?*

IF IT TOUCHES  
THE LIPS,

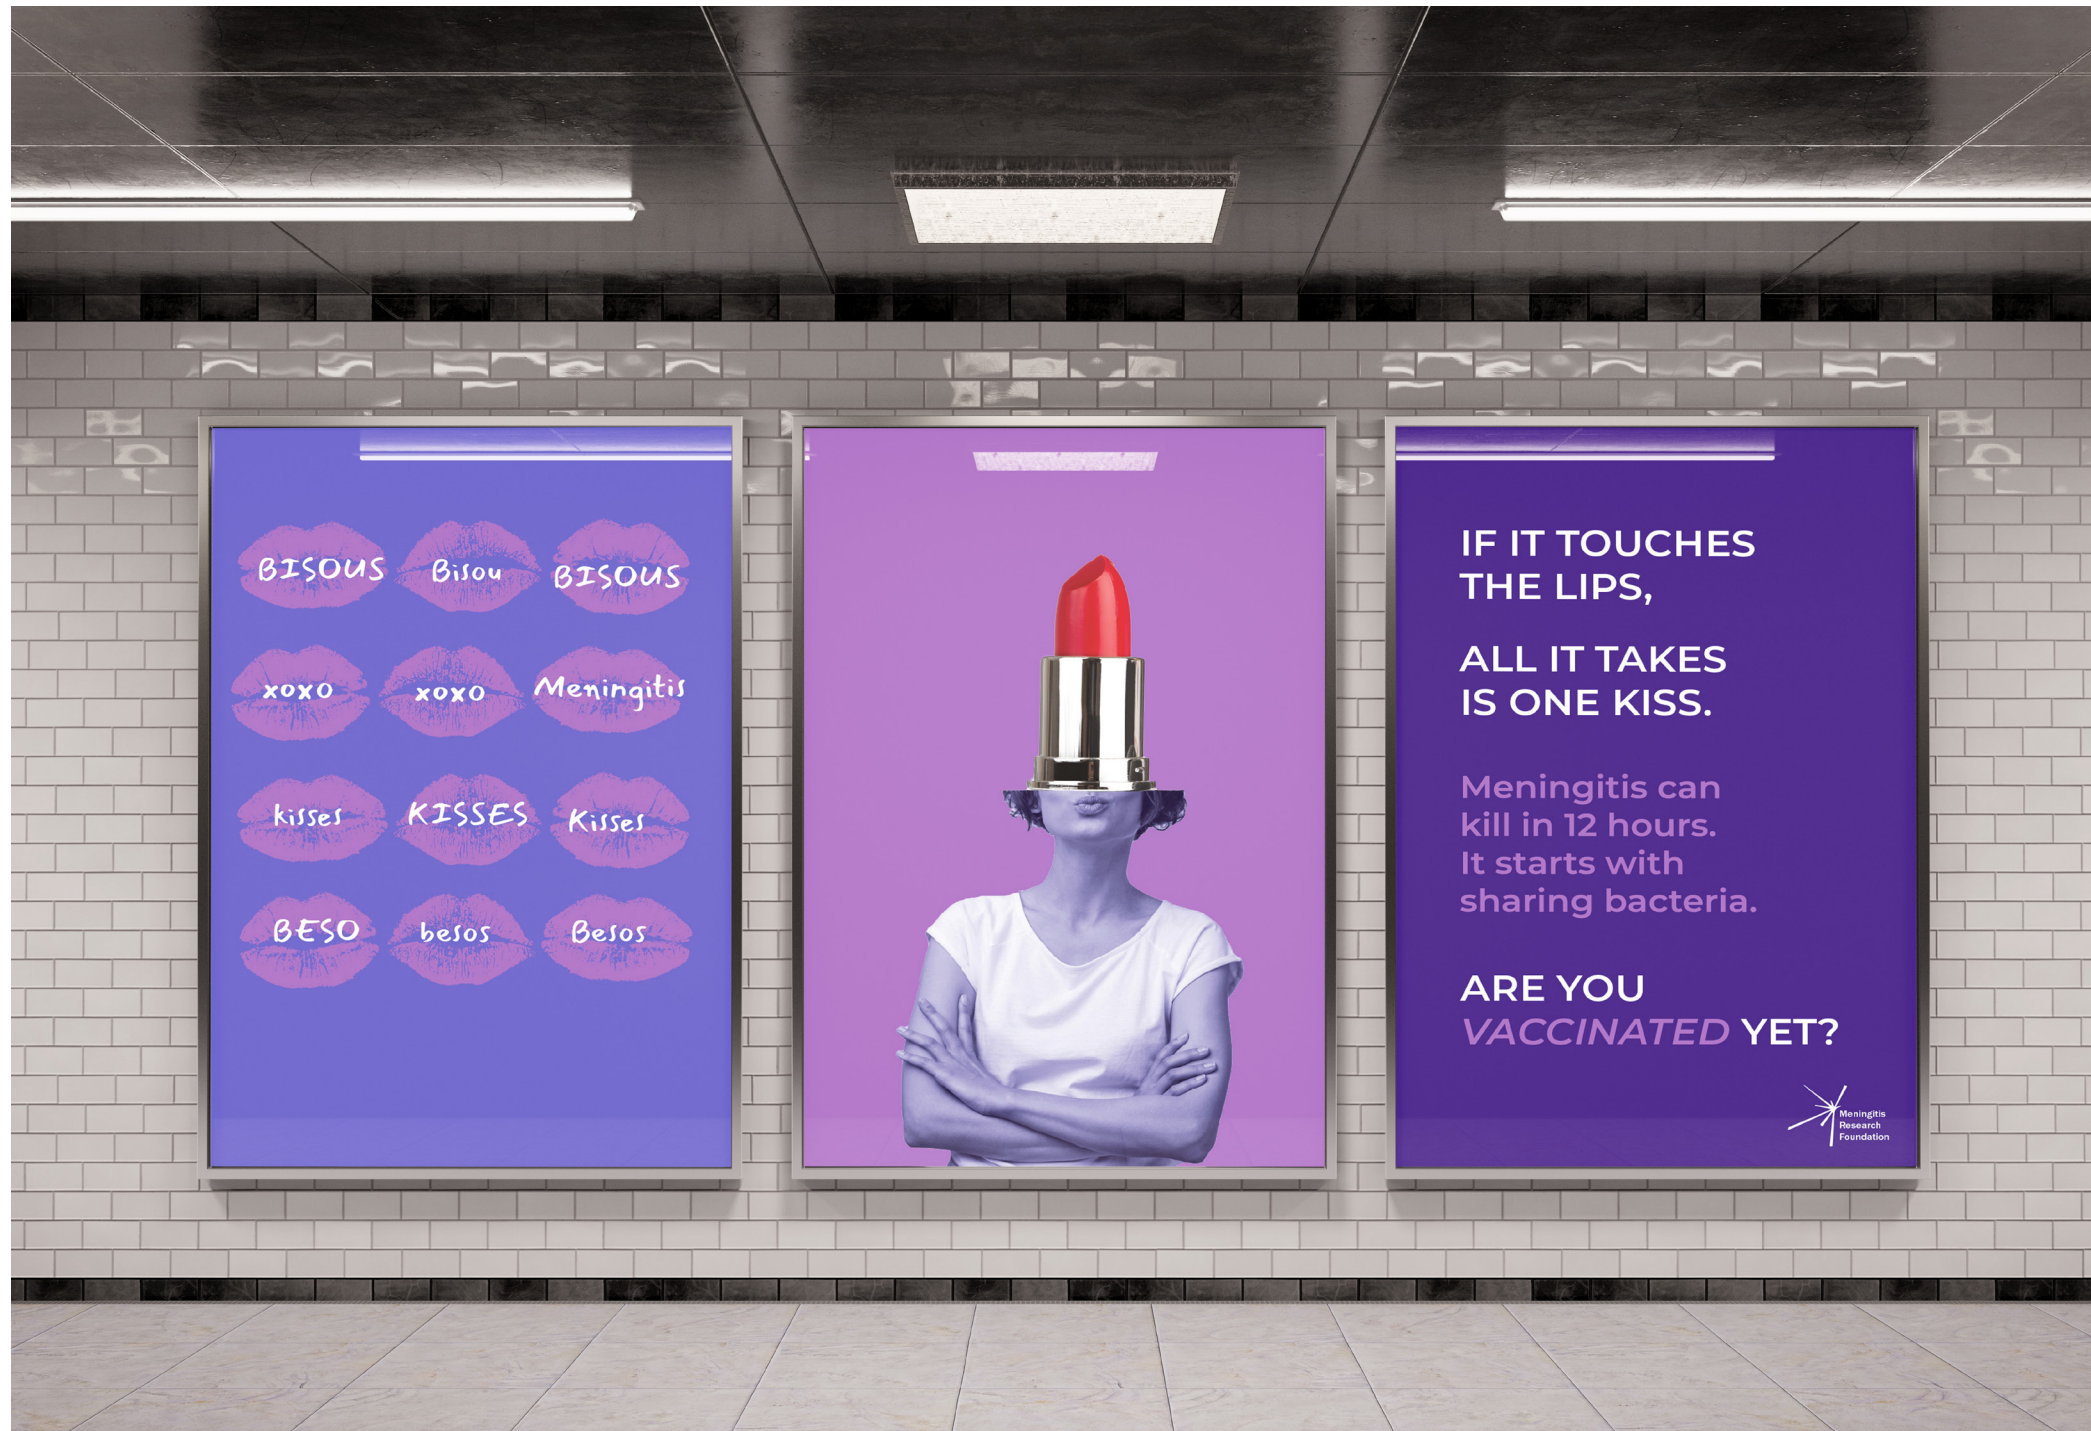

ALL IT TAKES  
IS ONE SIP.

Meningitis can  
kill in 12 hours.  
It starts with  
sharing bacteria.

ARE YOU  
**VACCINATED YET?**

All it takes is one kiss.  
*Are you vaccinated yet?*

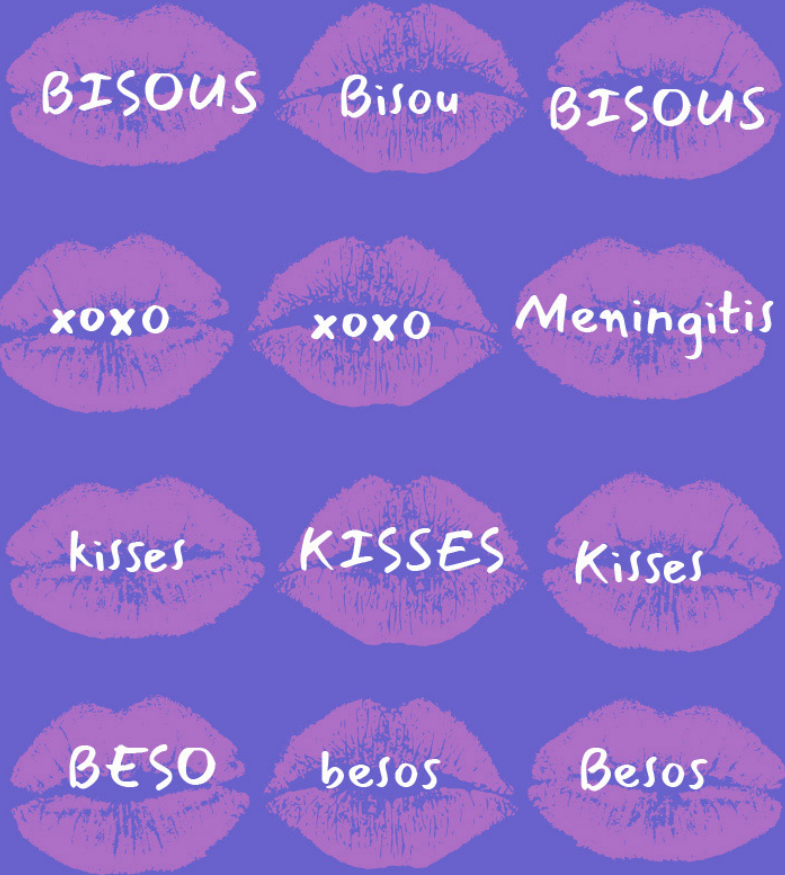

All it takes is one kiss.  
*Are you vaccinated yet?*

IF IT TOUCHES  
THE LIPS,  
ALL IT TAKES  
IS ONE KISS.

Meningitis can  
kill in 12 hours.  
It starts with  
sharing bacteria.

ARE YOU  
*VACCINATED* YET?

Si toca tus labios,  
solo toma un beso.  
¿Te has *Vacunado*?

SI TOCA TUS  
LABIOS,  
  
SOLO TOMA  
UN BESO.

Meningitis puede  
matarte en 12 horas.  
Comienza al  
compartir bacterias.

¿TE HAS  
*VACUNADO*?

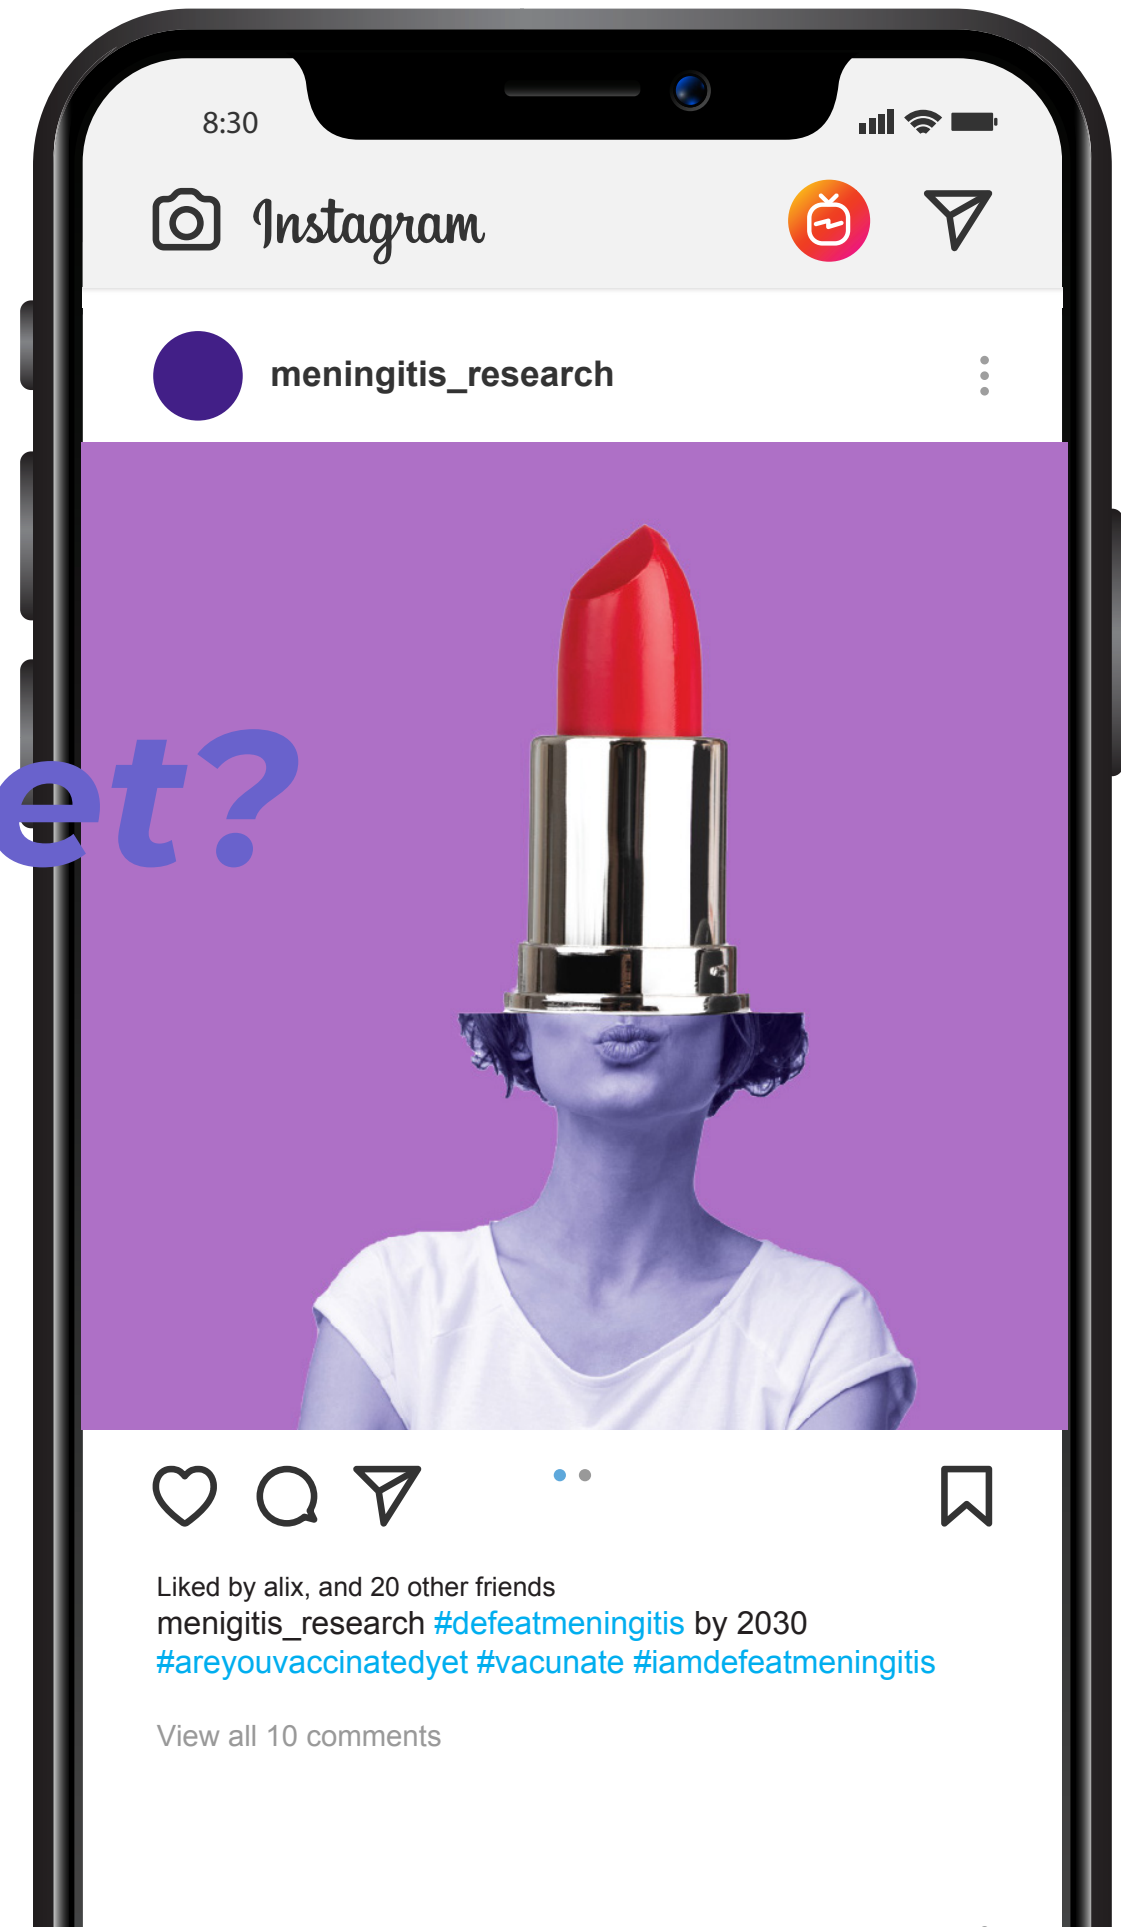

Meningitis  
Research  
Foundation

If it touches the lips,  
all it takes is one lick.  
*Are you vaccinated yet?*

*Are you  
Vaccinated yet?*

# Thank you!

## **Are you Vaccinated yet? Campaign 2030**

This Campaign was created for the Meningitis Research Foundation, and the World Health Organization Defeat Meningitis by 2030.

Thank you to all the judges and for giving me this once in a lifetime opportunity.

Special thanks to Professor Claudia Röschmann.
